History

SCREEN 01

Welcome Page

The entry point establishes trust and guides users toward their first interaction with the assistant.

- Hero section with clear value proposition
- Feature highlights with iconography
- CTA buttons: "Get Started" and "Sign In"
- Social proof: user count and testimonials

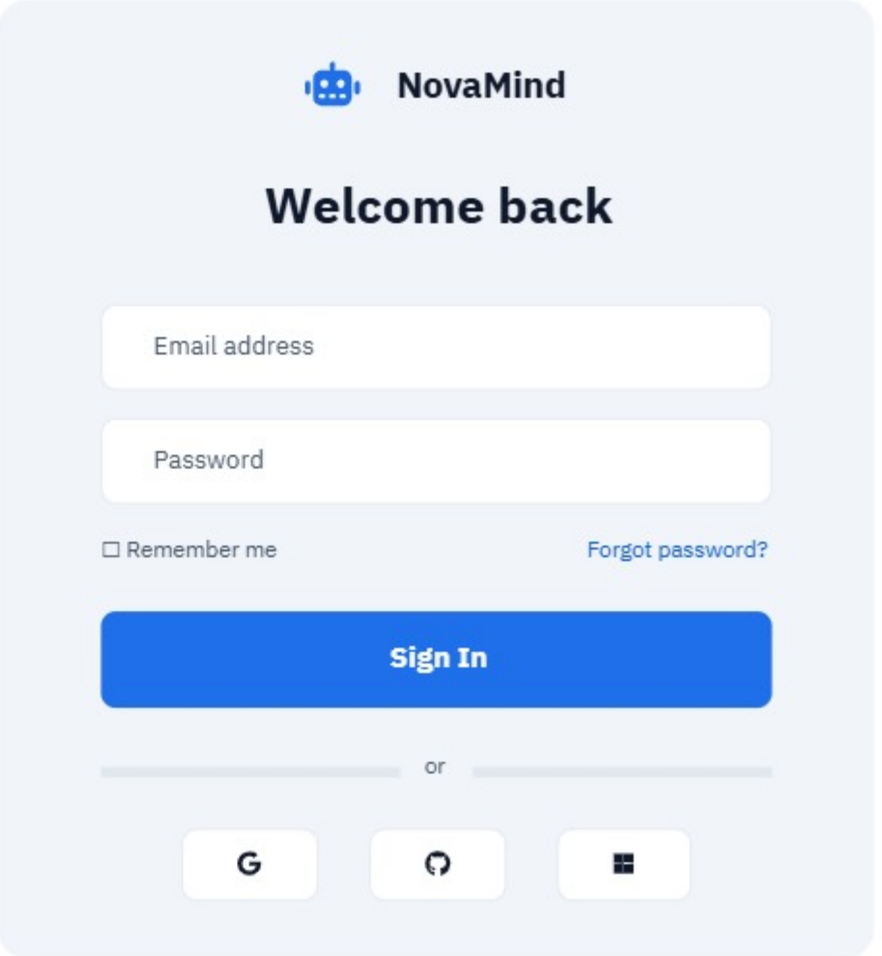

SCREEN 02

Login Page

Clean authentication flow with multiple sign-in options and minimal friction.

- Email & password authentication
- OAuth: Google, GitHub, Microsoft
- Remember me & forgot password flow
- Link to create new account

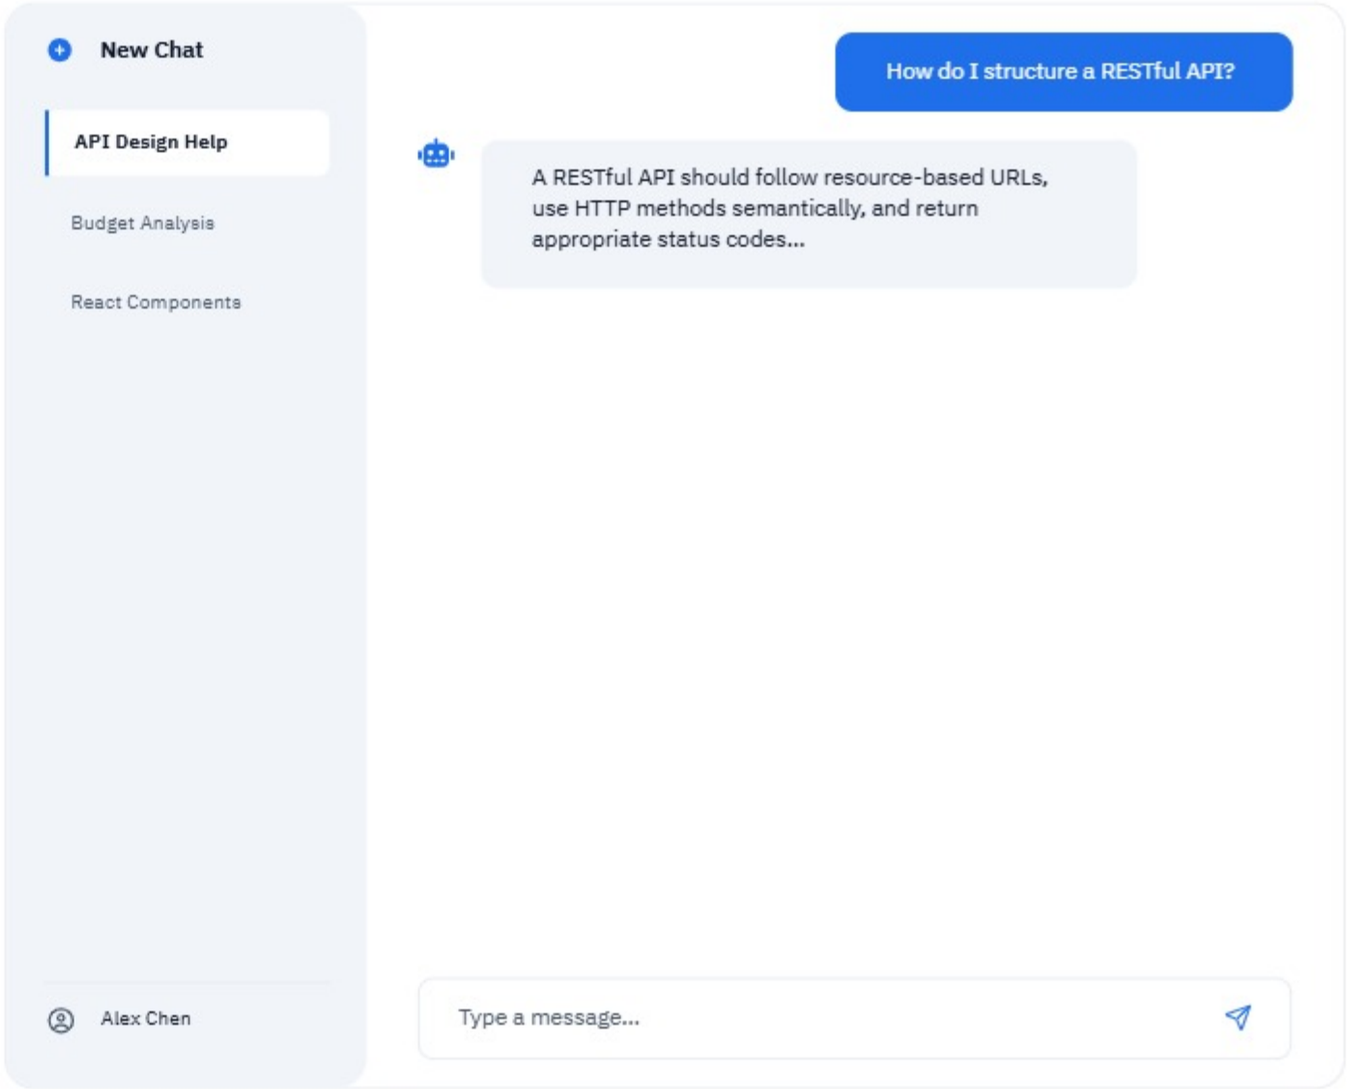

SCREEN 03

Chat Interface

The core experience — a conversational AI interface with sidebar navigation and real-time responses.

- Collapsible sidebar with chat threads
- Message bubbles with timestamps
- Typing indicator and streaming
- User profile in sidebar footer

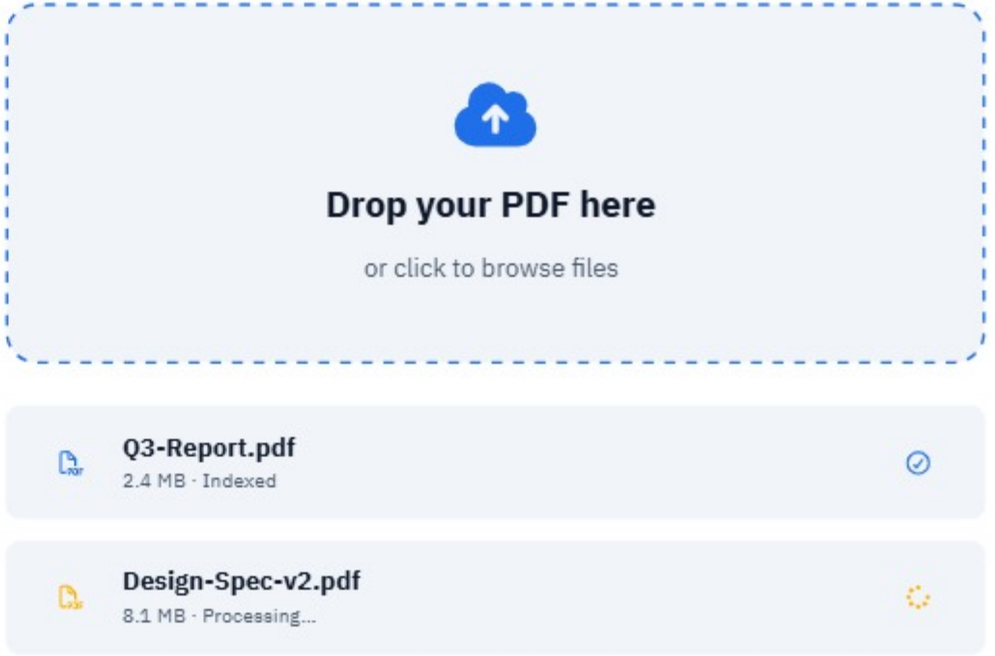

SCREEN 04

Upload Documents

Upload PDFs and let the AI index, summarize, and answer questions about your documents.

- Drag-and-drop upload zone
- Progress indicator during processing
- Document list with status badges
- Max 25MB per file, PDF only

SCREEN 05

Chat History

Search, filter, and revisit past conversations. Every thread is preserved and searchable.

- Full-text search across all chats
- Date filters and conversation tags
- Preview snippets before opening
- Pin, archive, and delete threads
